Newsletter

JULY 2024

Awakening is a continuous journey of discovery, growth, and enlightenment. Awakening is the freedom that comes from realizing our inner potential—personal, intellectual, emotional, spiritual, and social.

We are committed to fostering holistic awakening in our institutions, encouraging curiosity, nurturing talents, and vigorously pursuing dreams. For students, awakening means recognizing their unique strengths and interests, exploring new subjects, engaging in extracurricular activities, and challenging themselves to achieve new dreams.

As we embrace holistic growth, let us strengthen our belief in the power of an open mind and a willing spirit. In learning, personal growth, or community engagement, awakening unlocks boundless possibilities and transformative experiences. Together, let us awaken to the limitless potential within each one of us.

VALUE OF THE MONTH : AWAKENING !!

Machilakath Abdul Rahim, an Indian from Kerala had spent 18 years in Saudi prison. In a rare show of benevolence and solidarity, Hindus, Christians and Muslims came together to raise Rs 34 crore needed to secure Rahim's release from prison and send him back home. It was an apt Eid-Vishu gift, as the holy month of Ramadan coincided with Vishu, a Hindu festival celebrating Malayalam new year. **Hands raised in prayer for saving life of an Indian** shows the power of unity and compassion. Rahim's mother, Fathima, who has not seen him since the day he left in 2006 is waiting with bated breath for her son's homecoming.

School Activities

Kaleidoscope: Cultural programme

To promote cultural diversity and talent among students, A cultural programme, 'Kaleidoscope' was organised by TIGPS, Kolaghat. Students showcased a variety of performances on dance, drama, music, recitation, fashion show, et al. This two-day grand celebration was a great success. Students from all standards participated enthusiastically.

Mother's Day Celebration

Mother's Day serves as a day of reflection and appreciation for the selfless love and care that mothers provide. Mothers are often the heart of our homes, nurturing us from infancy to adulthood. To pay tribute to the unending love and affection of mothers globally TIGPS Kolaghat celebrated Mother's Day this May. Mothers were honored with mementos by our teachers. Mothers participated in various activities which brushed up their talents as well.

Inter-house board decoration competition. To celebrate Rabindra Jayanti and to inculcate the literary excellence of Tagore among students, an inter house board decoration competition was arranged among the students. The soft boards got decked up with multiple hues reflecting the charisma of Tagore. The aesthetic mind of the children got percolated among everyone where teachers too got involved.

Summer Fun

Beat the Heat Day was a day of fun and frolic for pre-primary students. Children had a bundle of activities to beat the scorching heat. For making this day memorable, teachers had volunteered to organize and conduct games and activities for children. They kick-started the day with a craft activity, in which the children decorated a popsicle stick.

Healthy Activity

The shining toddlers of TIGPS Kolaghat indulged themselves in yoga classes as a part of their healthy activity. Although, they were initially reluctant to get engaged in physical activity, but, the sheer joy and encouragement of doing anything in group brought them together and made it a success. Such activities are designed to enhance the cognitive development of the students.

Eco- Initiatives & CSR

The students of TIGPS Kolaghat visited an old-age home to seek the blessings of the elders on the onset of Bengali New Year. The sole purpose is to instill in them a sense of fellow-feeling and spend some quality time with the less fortunate. The day brought a smile on the face of elderly people and they forgot their agony for the time being. Sweets and fruits were distributed and laughter and mirth were shared to mark the beginning of the Bengali New Year.

If more trees are planted, then the environment will become a safer place to live in. On that note, TIGPS, Kolaghat had organised a massive tree plantation programme to cultivate a sense of lifelong commitment to preserve and protect nature. Our sole motive remained to create cleaner and healthier air for students, staff and community, and provide a more conducive learning environment.

To combat Global Warming and create awareness among fellow citizens, TIGPS Kolaghat initiated an awareness programme in the suburban areas of Kolaghat. Students and teachers participated enthusiastically on that day. Saplings were distributed, placards projecting ban on plastics were displayed. Students decked up with cut outs to become the attraction of the day.

Donating books is a noble act of charity that helps to spread knowledge and wisdom. A student of TIGPS Kolaghat donated a book to school library on the occasion of his birthday. Such noble act was appreciated and encouraged by the Principal sir and the teachers. The boy set an example of celebrating the birthday in a different and significant way.
